Dear valued partner,

Throughout the last year, Aurubis and Metallo have grown together sooner and faster than initially expected. We have achieved a lot together and we are proud of that. All this happened under the principle of keeping the best of both worlds, Metallo and Aurubis.

Our position as a trustworthy provider of a broad portfolio of recycling solutions allows us to truly add value to the circular economy. At Aurubis, we reinforce the recycling industry in the European Union and beyond as a unified global player. We commit ourselves to constantly delivering more value with a smaller environmental footprint.

In order to support the next steps in growing together and to continue maintaining and expanding the position of Aurubis as the world's most sustainable integrated smelter network, now is the right point in time to adopt the Aurubis name at all sites worldwide.

We are very pleased to inform you that as of today, December 1, 2021, three of our sites have been renamed: the former Metallo plants in Beerse (Belgium) and Berango (Spain) and the plant in Olen (Belgium). The plants in Beerse and Berango will also adopt the Aurubis logo. With the same name, logo and corporate identity, we clearly show that we are one Aurubis team, one big Aurubis family.

- 'Metallo Belgium nv' has been renamed 'Aurubis Beerse nv'
- 'Aurubis Belgium nv' has been renamed 'Aurubis Olen nv'\*
- 'Metallo Spain S.L.U.' has been renamed 'Aurubis Berango S.L.U.'

\*to avoid any confusion between the two Belgian sites.

### **What does this mean for you?**

We would be grateful if you would adapt your systems accordingly at your earliest convenience in order to ensure that our business together continues smoothly. Please pass on this information within your company. The change only concerns the company name; all other contact details and data such as address, VAT number, and company registration number remain unchanged. Please find an overview at the end of this message.

The name change is not connected to any further organizational changes and will not affect your daily business with us. The business processes and your contacts at Aurubis will stay the same, and we remain at your service as always. We are looking forward to our continued collaboration and will uphold everything that you value about us.
