MEMO

Date: 01.10.2021 Issued by: Aurubis plant Hamburg

Topic: **Corona Test Mobile won't be used on the plant premises anymore and also the "2G" rule (as it's called in Germany) applies to all visitors starting October, 1st - Aurubis AG, plant Hamburg**

Dear Sir or Madam,

Due to the favorable trend in the infection situation in Hamburg right now, the Corona Test Mobile won't be used on the plant premises anymore **starting October 1st**.
Please keep in mind the current regulations regarding the tests the employer provides to employees who can't work remotely.
The goal is still for all employees to take tests regularly.

Furthermore, the "2G" rule (as it's called in Germany) applies to all visitors starting October 1, 2021. Only visitors with a valid proof of vaccination or proof of recovery from the coronavirus can enter. Visitors without this proof are not permitted to enter anymore. Upon entering, visitors must also show their personal ID.
Visitors still have to be registered at empfangwerkost@aurubis.com. Please always inform visitors from your company about our regulations.

Thank you!
