

# The Copper Mark Summary Report

# **Participant Information**

Name of the Site	Aurubis AG, Luenen	
Unique identifier provided by the Copper Mark	P0025	
Address	Kupferstrasse 23, D-44532	
Country of Operation	Germany	
Copper products produced on site		
(e.g., concentrate, anodes, cathodes, sulphuric acid, slag, etc.)	Copper cathodes	
Metals produced on site	Copper, zinc oxide, nickel sulphate, lead-tin-	
(e.g., copper, gold, nickel, silver, molybdenum)	alloy, gold, silver and PGM (final extraction at Hamburg site)	
Metals included in scope of Criterion 31 (this must be all, or a sub-set of the metals produced on site)	Copper	
Metals covered by other independent assessments for Criterion 31 (e.g., RMAP, LBMA, RJC, etc.)	NA	
Types of operations included in scope		
Mining		
Concentrate blending		
Solvent extraction and electrowinning		
Smelting	$\boxtimes$	
Refining		
Fabrication		
Other (please explain)		
Infrastructure owned or controlled by the site and included in scope		
Roads	$\boxtimes$	
Rails	$\boxtimes$	

Ports	
Other (please explain)	

### **Independent Review**

•			
During this step, the Independent Reviewer examined the Copper Producer's self-assessment, supporting documentation, independent third-party assurance reports, and publicly available information.	orting		
The activities included review for completeness, verifying equivalence, and conducting desk-based due diligence.	4 January – 14 February 2022		
As a result, the Independent Reviewer recommended the scope of the site assessment to the Copper Mark.			
The Independent Review took place on these dates:			
	All criteria except:		
	7. Freedom of Association and Collective Bargaining		
The Independent Reviewer confirmed completeness,	9. Gender Equality		
indicating available evidence for the assessor to review for all applicable criteria:	• 10. Working Hours		
	• 11. Remuneration		
	• 17. Freshwater Management		
	• 30. Cultural Heritage		
	All except:		
	12. Occupational Health and safety		
	<ul> <li>14. Environmental Risk Management</li> </ul>		
	16. Energy Consumption		
The Independent Reviewer recommended the	• 19. Tailings Management		
following criteria be included in the scope of the independent site assessment:	22. Mine Closure and Reclamation		
	25. Artisanal and Small-Scale     Mining		
	• 27. Security and Human Rights		
	• 28. Indigenous Peoples' Rights		
	29. Land Acquisition and Resettlement		

#### The following equivalent systems were applied:

Equivalent systems are determined by the Copper Mark to have standards and assurance requirements that are materially comparable in scope and intent to those of the Copper Mark, in accordance with the <u>Copper Mark Recognition Process</u>.

Equivalent System	Review Process	
(Name, date of assurance / certification)		Criteria Covered by Equivalency
	The Independent Reviewer confirmed the assurance / certification was:	
	Valid at the time of the review	
	<ul> <li>No more than 24 months old and / or plans for reassessment are underway</li> </ul>	
ISO 14001:2015	<ul> <li>In effect for an additional 12 months and / or plans</li> </ul>	<ul> <li>14. Environmental Risk Management</li> </ul>
7 June 2020	for reassessment are underway	16. Energy Consumption
	Covering the same scope as the Copper Mark Responsible Production Criteria, including operations, locations, and materials	
	Accompanied by improvement plans where applicable	
	The Independent Reviewer confirmed the assurance / certification was:	
	Valid at the time of the review	
ISO 45001:2019 28 May 2021	<ul> <li>No more than 24 months old and / or plans for reassessment are underway</li> </ul>	12. Occupational Health and Safety

	Assessment of criteria related to transparency and disclosure		
	<ul> <li>Assessment of criteria related to business relationships</li> </ul>		
	Review of internal audits\		
	Day 2		
	Introductions from the site		
	Site tour		
	Internal interviews		
	<ul> <li>Assessment of criteria related to community health and safety and community development</li> </ul>		
	<ul> <li>Assessment of criteria related to greenhouse gas emissions, freshwater management, biodiversity</li> </ul>		

Day 3
Interviews with works council
Interviews with external stakeholders
Day 4: Assessment of Criterion 31

# **Summary of Findings**

Criterion	Rating	Comments
	Fully meets, partially meets, does not meet, not applicable	Includes link to publicly available documents or supporting evidence where possible and at a minimum for those criteria with an *
1. Legal Compliance	Fully meets	Aurubis AG is heavily regulated under German and EU law. The site has a system in place designed to ensure legal compliance. This is documented in the Compliance Policy and Compliance Management System. The management system is resourced at corporate office and throughout the operations by designated personnel responsible for legal compliance, including a dedicated team to monitor current and future European Union regulation. The system is supported by a register of all legal obligations and the responsible person designated to each obligation.
		Further evidence of conformance was provided through review of annual reports and external audits that cover legal compliance elements.
2. Business Integrity	Fully meets	Luenen has policies and management systems in place to support business integrity that are overseen by dedicated Local Compliance Representatives. The systems are complemented with training and an anonymous whistle-blowing hotline. Records were reviewed to confirm the hotline is used and complaints are investigated.
		Facilitation payments are prohibited as per German law.
3. Stakeholder Engagement*	Fully meets	Luenen carries out stakeholder mapping, engagement, and communications. External stakeholder interviews indicated that there is a good relationship with stakeholders. The formal grievance process is available at <i>https://www.aurubis.com/en/responsibility/whistleblower-</i> <i>hotline</i>
4. Business Relationships	Fully meets	There is a corporate run program to screen suppliers and contractors before onboarding.

		The Corporate Compliance department is responsible for the implementation of the screening process, with significant input from the sustainability team and oversight by the Board. Once onboarded, suppliers and contractors are subject to contract clauses requiring business partners to comply with Aurubis Policies including the Business Partner Code of Conduct, which includes ESG requirements. Site management is responsible for day- to-day management of contractors, who are subject to annual audits. Screening for this process is being further developed.
5. Child Labor	Fully meets	Child labor policies are included in the Code of Conduct and the Business Partner Code of Conduct, both of which also include commitments to ILO labor Standards. Luenen has procedures in place to verify age. The site has a vocational training program in place,
		which includes 16–18-year-olds. Appropriate controls are in place for this program.
6. Forced Labor	Fully meets	Forced labor policies are included in the Code of Conduct and the Business Partner Code of Conduct, these also include commitments to ILO labor Standards. The site also publishes in accordance with the UK Modern Slavery Act.
		A training course that includes content on forced labor is currently being rolled out.
7. Freedom of Association and Collective Bargaining	Fully meets	The right to freedom of association and the right to collective bargaining are required by policy in the Code of Conduct and the Business Partner Code of Conduct and are in line with German law. All workers at the site are represented by Works Councils and these in turn communicate with a Central Works Council. Works Councils Members at each site are elected by the workforce. The Works Councils negotiate additional agreements to the main collective agreement. There are collective bargaining agreements in place that cover the full range of employment topics.
		Interviews with Works Councils members and members of the workforce confirmed that the Works Councils active at the site for two-way communications on work- related issues.
8. Discrimination	Fully meets	The follow up assessment in 2023 confirms this criterion is fully meets.
		Discrimination and harassment policies are included in the Code of Conduct and the Business Partner Code of

		Conduct. These also include commitments to ILO labor Standards and aligned with German law.
		Since the original assessment, Aurubis developed and published a formal commitment to gender equality to supplement the code of conduct. This includes: Guiding Principles, and commitments to integrate these into working conditions, recruitment, communications, leadership and business partners. It
		includes a section on reporting and on how to report grievances. The document is available on the Aurubis web site and on their internal intranet.
		The policy has been rolled-out to the Hamburg and Lunen sites through related training programmes. This was assessed as fully meets in the follow up of January – April 2023.
9. Gender Equality	Fully meets	The follow up assessment in 2023 confirms this criterion is fully meets.
		Gender equality requirement is included in the Code of Conduct. A Diversity policy with more specific gender- related elements is under development. There are initiatives in place to promote women in their career paths.
		Female interviewees at Luenen stated that they are comfortable with benefits and that these are fair and equal for women, also that bonuses are based on performance and are not discriminatory.
		Since the original assessment, Aurubis developed and published a formal commitment to gender equality to supplement the code of conduct. This includes: Guiding Principles, and commitments to integrate these into working conditions, recruitment, communications, leadership and business partners. It
		includes a section on reporting and on how to report grievances. The document is available on the Aurubis web site and on their internal intranet.
		The policy has been rolled-out to the Hamburg and Lunen sites through related training programmes. This was assessed as fully meets in the follow up of January – April 2023.
10. Working Hours	Fully meets	Policy wording on working hours is included in the Code of Conduct and the Business Partners Code of Conduct in line with German law and the collective bargaining agreements in place. Overtime is voluntary.
		Hours are monitored through a time management system that tracks working hours and alerts when they

		are over the daily maximum. Interviews with workers confirmed the adherence to working hour limits.
11. Remuneration	Fully meets	Policy wording on remuneration is included in the Code of Conduct and the Business Partners Code of Conduct and aligns with German minimum wage, which is aligned with expectations of what is required as a living wage as are national unemployment and benefit schemes.
		Remuneration tariffs and benefits for various work placements are set in the collective bargaining agreement.
12. Occupational Health and Safety	Fully meets	The independent reviewer confirmed that the site meets the requirement as validated through ISO 45001 certification.
		A site walk-through confirmed that there is appropriate housekeeping, that workers were appropriately kitted out with PPE, and that safety signs and barriers were in place. Interviewees commented on the company focus on a safe working environment.
13. Grievance Mechanism	Fully meets	Aurubis has a grievance mechanism aligned with the UN Guiding Principles effectiveness criteria available to internal and external stakeholders. The whistleblowing line is run by an independent ombudsman and is available to all stakeholders.
		This is complemented by an anonymous internally available support hotline that is managed through an external organization and is available 24/7.
		Workers can also raise concerns with conversations with line managers, human resources, or through the Works Councils.
		Management recognized a need to strengthen the culture of feedback and has begun to do so by setting a target of receiving "pulse checks" from workers on feedback processes.
14. Environmental Risk Management	Fully meets	The independent reviewer confirmed that the site meets the requirement as validated through ISO 14001-2015 certification.

15. Greenhouse Gas (GHG) Emissions*	Fully meets	Aurubis reports Greenhouse Gas Emissions through the Carbon Disclosure Project. https://www.cdp.net/en/responses/1177 Report 2021: https://www.aurubis.com/en/dam/jcr:437e5748-7f77- 40ae-8329- 749675d8422f/Aurubis_cdp_climate_change_2021.pdf Aurubis has made a commitment to 50% reduction of Scope 1 & 2 emissions and 24% reduction of Scope 3 emissions by 2030 based on a 2018 baseline. These targets are validated by the Science Based Targets Initiative (SBTi). Aurubis is also a signatory to the Business Ambition for 1.5°C. Aurubis is certified to ISO50001 on energy management systems. Commitments are supported by a decarbonization roadmap and specific projects such as energy management. Aurubis has planned and commenced a decarbonization road map at Luenen tied to the corporate roadmap. More information is available at: https://annualreport2020-21.aurubis.com/
16. Energy Consumption	Fully meets	The independent reviewer confirmed that the site meets the requirement as validated through ISO 14001-2015 certification.
17. Freshwater Management and Conservation	Fully meets	Luenen has a water management system covered by ISO 14001-2015. It addresses both use and discharge. The site is essentially self-contained, with water going to a closed water system prior to discharge to municipal wastewater system. Aurubis Luenen is not in a water constrained area, so water supply risks are low. However, there are initiatives in place to reduce the use of water.
18. Waste Management	Fully meets	Luenen has a waste management system covered by ISO 14001-2015 that utilizes the waste hierarchy. Luenen utilizes waste recycling so that process wastes are fed back into the process to minimize the residual wastes for disposal. Waste disposal is regulated under German duty of
19. Tailings Management	Not applicable	care laws. Not applicable to smelters and refiners.

THE

COPPER

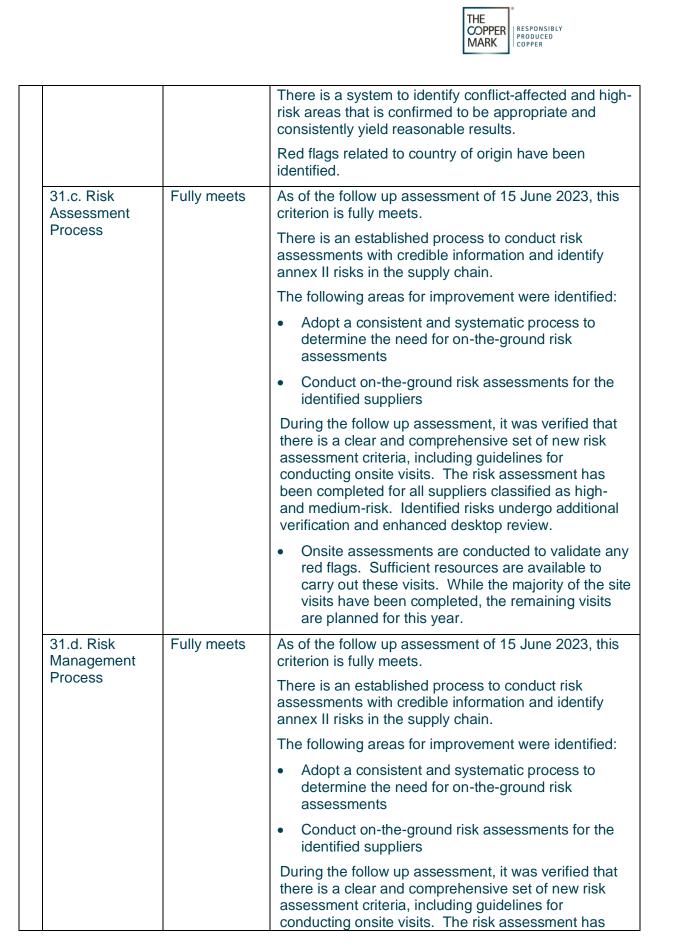

MARK

RESPONSIBLY

PRODUCED

27. Security and Human Rights	Not applicable	Not applicable to smelters and refiners.
28. Indigenous Peoples' Rights	Not applicable	Evidence provided to demonstrate that there are no indigenous communities in the area of influence.
29. Land Acquisition and Resettlement	Not applicable	Evidence provided to demonstrate that there is no land acquisition and resettlement.
30. Cultural Heritage	Fully meets	Cultural heritage issues are not identified in the risk evaluation process.
		As the land take footprint is fixed and no land expansions are planned, the possibility of disturbing cultural sites is low.
		The EIA in 2009/2010 did not identify any impacts on cultural heritage.
31. Due Diligence in Mineral Supply Chains	Fully meets	As of the follow up assessment of 15 June 2023, this criterion is fully meets in accordance with the Joint Due Diligence Standard for Copper, Lead, Molybdenum, Nickel, and Zinc.
		Luenen has a complex supply chain with hundreds of suppliers covering thousands of transactions of both mined and recycled material per year.
		Due diligence in mineral supply chains is handled primarily at corporate headquarters.
31.a. Management System	Fully meets	Luenen follows the Aurubis Business Partner Code of Conduct, which is confirmed to be appropriate to the nature, scale, and operational context of the company. This is supported by a policy (available at <u>https://www.aurubis.com/en/downloads</u> ) adequate resources and clear roles and responsibilities.
		There is a system of transparency and controls. Aurubis works with suppliers to gather and collect necessary information and build capacity where appropriate.
		The due diligence management system includes a process for continuous improvement of due diligence implementation over time, to ensure its implementation.
31.b. Red Flag Identification Process	Fully meets	The company's process to collect, review, and retain information for red flags identification is appropriate to the nature, scale and operational context of the company.

			been completed for all suppliers classified as high- and medium-risk. Identified risks undergo additional verification and enhanced desktop review.
			Onsite assessments are conducted to validate any red flags. Sufficient resources are available to carry out these visits. While the majority of the site visits have been completed, the remaining visits are planned for this year.
	31.e. Public Reporting*	Fully meets	As of the follow up assessment of 15 June 2023, this criterion is fully meets.
			There is an established process to conduct risk assessments with credible information and identify annex II risks in the supply chain.
			The following areas for improvement were identified:
			<ul> <li>Adopt a consistent and systematic process to determine the need for on-the-ground risk assessments</li> </ul>
			<ul> <li>Conduct on-the-ground risk assessments for the identified suppliers</li> </ul>
			During the follow up assessment, it was verified that there is a clear and comprehensive set of new risk assessment criteria, including guidelines for conducting onsite visits. The risk assessment has been completed for all suppliers classified as high- and medium-risk. Identified risks undergo additional verification and enhanced desktop review.
			Onsite assessments are conducted to validate any red flags. Sufficient resources are available to carry out these visits. While the majority of the site visits have been completed, the remaining visits are planned for this year.
	. Transparency	Fully meets	Luenen operations ESG performance are reported in:
an	d Disclosure*		Sustainability report (published every two years latest was 2019/20)
			The Annual Report (annual) (including a non-financial sustainability section, the non-financial report, according to the German Commercial Code (HGB)
			The Environmental report (annual)
			EMAS statement (annual)
			Reporting is based on the internationally recognized standards of the Global Reporting Initiative (GRI) and the Sustainability Report includes a GRI KPI summary).

#### Conclusions

Statement of	of conformance
The site is found to fully meet all applicable criteria of the Risk Readiness Assessment and, for Criterion 31, all applicable conformance criteria of the Joint Due Diligence Standard.	
The site is found to fully meet or partially meet all applicable criteria of the Risk Readiness Assessment and, for Criterion 31, all applicable conformance criteria of the Joint Due Diligence Standard. The site has committed to continuous improvement to fully meet all applicable Copper Mark Criteria by 30 June 2023.	
The site is found to miss some or all of the applicable criteria of the Risk Readiness Assessment and / or for Criterion 31, some or all of the applicable conformance criteria of the Joint Due Diligence Standard. The site has committed to continuous improvement to fully meet all applicable Copper Mark Criteria by 30 June 2023.	
The site misses some or all of the applicable requirements of the Risk Readiness Assessment and / or for Criterion 31, the applicable criteria of the Joint Due Diligence Standard. The Site has not committed to continuous improvement.
